AIKIA.WALLET / CFO PRICING PLAN

The cheapest price that keeps us out of debt.

Every cost counted: platform, data, management, sales, development and launch. Then the lowest monthly price at which the cafes pay for all of it, and how many cafes that takes. Own Google and Apple wallet engines, no PassKit. October 2026.

Rs 499

A MONTH, Basic plan (Rs 4,999 a year). Rs 17 a day: less than one cup of coffee. 85% below Reelo's Growth plan.

45 cafes

TO BREAK EVEN every month on running costs (30% on the Rs 799 Plus plan). 88 cafes to also repay development and launch within 12 months.

Rs 2,72,061

CASH TO HAVE IN HAND before launch, so we never borrow: the lowest point at 12 new cafes a month.

The decision. Basic Rs 499 a month (or Rs 4,999 a year), Plus Rs 799 a month (or Rs 7,999 a year), no setup fee for the first 50 founding cafes. Prices before GST. Break-even at about 45 cafes; all money back by month 17 at 12 new cafes a month.

Why not cheaper. At Rs 299 we would need 158 cafes just to cover running costs. For a brand nobody knows yet, that is a year of selling before we stop losing money. Rs 499 is cheap enough to feel like no risk and still reachable.

1 / THE MARKET PRICE

What cafes pay today

Option	What it is	Price	Src
Reelo Growth	The best-known cafe loyalty and CRM tool in India	Rs 3,250 a month per outlet (Rs 39,000 a year + GST)	S
Reelo Forever Free	Basic SMS and email campaigns, customer insights	Rs 0	S
Petpooja POS	Billing software; loyalty and wallet are add-ons priced on request	about Rs 10,000 to 12,000 a year base	S
Paper stamp cards	Printed cards and a rubber stamp	Rs 1,000 to 3,000 a year	E
AIKIA.WALLET Basic (proposed)	Google and Apple Wallet card, stamps, tiers, offers, geofencing, no app download	**Rs 499 a month**	-

Where we stand. At Rs 499 we are about 85%% below Reelo's paid plan and cost about the same as a year of paper stamp cards, yet the card lives in the customer's phone wallet. Reelo's free plan is the real competitor at the bottom: our answer is the wallet card itself, which no free tool gives.

India has about 5,339 branded coffee-shop outlets (World Coffee Portal, 2025) and independent outlets are about 76%% of the cafes-and-bars market (Mordor Intelligence). A city-by-city count of independent cafes in Vadodara, Ahmedabad and Surat is NOT DOCUMENTED; we need it before planning beyond 100 cafes.

2 / EVERY COST

What the cafes have to pay for

Cost	What it covers	Src	Rs a month
Platform	Hosting, database and ledger with backups, Apple Developer, weather licence, GitHub, GST on imported software, CA	S/E	Rs 12,724
Management and operations	Phone and internet, travel for sales and onboarding, admin	E	Rs 5,000
Development and launch, repaid in 12 months	Rs 1,10,000 build left (partner rate) + Rs 97,000 launch costs, spread over 12 months	E	Rs 17,250
Fixed cost a month, year 1			**Rs 34,974**
Fixed cost a month, from year 2 (development repaid)			**Rs 17,724**

Cost per cafe	What it covers	Src	Rs a month
Serving	Support calls, hosting growth, card messages	E	Rs 100
Winning the cafe	Standee and onboarding visit (Rs 1,000 once), spread over 12 months	E	Rs 83
Collecting the fee	UPI Autopay mandate: no MDR; gateway platform fee about 1%	S/E	1% of price
Per cafe a month			**Rs 183 + 1%**

What is not in here. Founder salaries (shown separately in section 4), office rent, paid ads, WhatsApp messages and the credit legal opinion. If we build the remaining work ourselves with Claude, development is Rs 0 and year-1 break-even drops sharply.

3 / THE PRICE LADDER

Cafes needed at each price

Each cafe leaves us its price minus the 1% collection fee and Rs 183 of its own cost. That remainder has to cover the fixed bill.

A month	A year	Left per cafe	Break-even, running costs	Also repay dev + launch in 12 months	Also pay founders Rs 25,000 each
Rs 299	Rs 2,999	Rs 113	158	311	602
Rs 399	Rs 3,999	Rs 212	84	166	320
Rs 499	Rs 4,999	Rs 311	58	113	218
Rs 599	Rs 5,999	Rs 410	44	86	166
Rs 699	Rs 6,999	Rs 509	35	69	134
Rs 799	Rs 7,999	Rs 608	30	58	112
Rs 999	Rs 9,999	Rs 806	22	44	85

Reading the ladder

- **Rs 299** is the cheapest price that covers anything, but needs 158 cafes before we stop losing money. Too slow for a new brand.
- **Rs 499** is the sweet spot: Rs 17 a day for the cafe, and 58 cafes to cover running costs.
- **Rs 999 and up** breaks even faster, but loses the "too cheap to say no" message we need without references.
- **Every price below about Rs 186 loses money on each cafe**, whatever the number of cafes.

4 / THE OFFER

Two cheap plans, one clear choice

Plan	Includes	Monthly	Yearly (2 months free)
Basic	Google and Apple Wallet card with the cafe's brand, stamps and free-reward rule, 3 tiers, staff scanner, offers and campaign messages, geofencing, owner dashboard, unlimited customers	Rs 499	Rs 4,999
Plus	Everything in Basic, plus prepaid credit with scan-and-charge, Send-a-gift, weather-mood messages and the monthly money report	Rs 799	Rs 7,999

- **No setup fee for the first 50 founding cafes**; Rs 999 setup after that.
- **30-day free trial**, no card needed. Billing by UPI Autopay so renewals never need a reminder.
- **Prices before GST.** Below Rs 20 lakh a year of turnover a service business usually doesn't need GST registration; ask the CA whether to register from day one (it lets us claim back GST on imported software).
- **Founding price lock:** the first 50 cafes keep their price for 2 years. That is the trust-builder we can afford.

Blended price. If 30% of cafes take Plus, the average is Rs 589 a month. Break-even on running costs: **45 cafes**. Repay development and launch within 12 months as well: **88 cafes**.

Credit on Plus. Prepaid credit with real money waits for the lawyer's written opinion. Until then Plus sells on gifts, weather messages and the report, and credit is switched on per cafe once cleared.

5 / CASH PLAN

Month by month, so we never borrow

Development and launch are paid upfront (Rs 2,07,000). Then each month: income from active cafes, running costs, and 3% of cafes leaving (the low end of the 3 to 7% small-business benchmark). Blended price Rs 589.

New cafes a month	Monthly break-even reached	Lowest cash point	All money back
8 (slow)	month 8	Rs 2,85,107	month 22
12 (plan)	**month 6**	**Rs 2,72,061**	**month 17**
20 (strong)	month 5	Rs 2,64,129	month 12

Monthly break-even in the cash plan comes later than the 45 cafes in section 4 because each month also pays Rs 12,000 to win 12 new cafes. Stop adding cafes and 45 is enough.

The plan, 12 new cafes a month

Month	Active cafes	Income	Costs	Cash position
Month 1	12	Rs 6,997	Rs 30,924	-Rs 2,30,927
Month 2	24	Rs 13,785	Rs 32,088	-Rs 2,49,230
Month 3	35	Rs 20,368	Rs 33,217	-Rs 2,62,079
Month 4	46	Rs 26,755	Rs 34,312	-Rs 2,69,636
Month 6	67	Rs 38,958	Rs 36,405	-Rs 2,69,508
Month 8	87	Rs 50,441	Rs 38,374	-Rs 2,50,060
Month 10	105	Rs 61,244	Rs 40,227	-Rs 2,12,433
Month 12	122	Rs 71,409	Rs 41,970	-Rs 1,57,701
Month 18	169	Rs 98,440	Rs 46,606	Rs 99,306
Month 24	207	Rs 1,20,956	Rs 50,467	Rs 4,77,259

Money to keep in hand: Rs 2,72,061. That is the deepest point of the plan. With it we never borrow. If we build the remaining work ourselves (Rs 0 development) it falls to about Rs 1,62,061.

Sales targets and money rules

Target	Cafes	What it takes
Weekly	3	About 15 cafe visits a week with the live demo (1 in 5 signs)
Month 3	about 34	Vadodara cafes and bakeries; the first case study
Month 4 to 5	45	Monthly break-even on running costs
Month 12	about 122	Expand to Ahmedabad and Surat, and to sweet shops, salons and gyms at the same price

Rules from the finance desk

1. **Sell yearly first.** Offer Rs 4,999 a year with two months free. Ten yearly cafes bring Rs 50,000 on day one, which funds the launch without borrowing.
2. **Never go below Rs 186 a month.** Below that, each cafe costs more than it pays.
3. **No discounts on top of the founding offer.** The price is already the discount.
4. **Keep 3 months of running cost (Rs 53,172) in the bank** at all times.
5. **Watch two numbers every month:** cafes leaving (keep under 3%) and new cafes (keep at or above 12).
6. **Raise prices only for new cafes**, once we have 3 case studies and 50+ cafes. Founding cafes keep theirs.
7. **Build the remaining work ourselves** where we can: every Rs 1 lakh saved on development is about 20 fewer cafes needed in year one.
