AIKIA.WALLET / PRICING SCENARIO B

Rs 899 and Rs 1,199: break-even and profit.

Basic at Rs 899 a month and Plus at Rs 1,199 a month, set against the Rs 499 / Rs 799 plan. Every cost counted, cafes needed to break even, profit at 50, 100 and 200 cafes, and a 3-year cash plan. Own Google and Apple wallet, no PassKit. October 2026.

23 cafes

TO BREAK EVEN every month on running costs (Rs 499 plan: 45). 44 cafes to also repay development and launch in year 1.

Rs 61,854

PROFIT A MONTH before tax with 100 cafes (Rs 499 plan: Rs 22,254).

month 12

EVERY RUPEE BACK, even selling 25% slower (9 new cafes a month). Rs 499 plan: month 17.

Finance desk verdict. Rs 899 / Rs 1,199 is the stronger business: it breaks even with half the cafes, needs less cash in hand and earns about twice the profit per cafe. It still sits far below every Indian competitor we found. The risk is a slower yes from cafes, so it needs a strong founding offer.

How to read this. Planning numbers, not quotes. The average price assumes 30% of cafes take Plus. Scenario B assumes cafes sign up 25% slower than at Rs 499 (9 a month instead of 12). Prices are before GST; cafes pay 18% GST on top if we are registered.

What the research says about Indian buyers

- **Indian businesses pay 50 to 70%% less** than US and EU customers for the same software, and traditional small businesses are the most price-sensitive.
- **Negotiation is expected.** Practitioners plan for a 20 to 30%% discount request and set the list price above the target. Rs 899 leaves room to "give" a founding discount and still land near Rs 629 to 719.
- **They pay for immediate, visible value.** A card in the customer's phone wallet and repeat visits the owner can count are easier to justify than a dashboard.

> **Position.** Even at Rs 899 we are about 72%% below Reelo, at the bottom of the global wallet-loyalty range, and the only option with Google and Apple Wallet cards built in. No formal Indian willingness-to-pay survey for this category was found; our first 20 sales calls are the real test.

- **100 cafes** pay each founder about Rs 23,143 a month after company tax.

3 years, month by month, scenario B

Development and launch paid upfront (Rs 2,07,000). 3% of cafes leave each month. Each new cafe costs Rs 1,000 to win.

New cafes a month	Monthly break-even	Cash to keep in hand	All money back	Year 1 (after upfront)	Year 2	Year 3
6 a month	month 5	Rs 2,50,708	month 16	-Rs 1.22 lakh	Rs 6.18 lakh	Rs 9.87 lakh

The plan: 9 new cafes a month

Month 1	9	Rs 8,812	Rs 27,624	-Rs 2,25,812
Month 2	18	Rs 17,360	Rs 28,497	-Rs 2,36,949

6 / RECOMMENDATION

How to sell Rs 899 so cafes still say yes

Plan	List a month	Yearly (2 months free)	Founding offer, first 50 cafes
Basic: wallet card, stamps, tiers, offers, geofencing, staff scanner, unlimited customers	Rs 899	Rs 8,999	Rs 6,999 for the first year
Plus: Basic + credit and scan-and-charge, Send-a-gift, weather messages, money report	Rs 1,199	Rs 11,999	Rs 8,999 for the first year

1. **Lead with the yearly price.** "Rs 8,999 a year, Rs 25 a day" is easier than "Rs 899 a month", and brings cash in on day one.
2. **The founding offer is the negotiation room.** Indian buyers expect 20 to 30% off; the founding price gives exactly that once, in writing, for the first 50 cafes only.
3. **30-day free trial** with the card live in the cafe's customers' phones. The trial does the selling.
4. **Show the maths to the owner:** 2 extra repeat visits a day at Rs 150 pays for Basic in 3 days.
5. **Keep Rs 499 in the pocket.** If fewer than 1 in 8 pitched cafes sign after 2 months, switch new cafes to the Rs 499 plan (section 3 shows it still works).
6. **Never go below the founding price** (Rs 6,999 a year, about Rs 583 a month, on Basic), and never give it after the first 50 cafes.
7. **Same money rules as before:** 3 months of running cost in the bank, churn under 3%, at least 9 new cafes a month.

> **Founding offer check.** If all 50 founding cafes pay the founding yearly prices (average about Rs 7,599 a year, about Rs 633 a month), break-even rises to about 40 cafes during the founding year. The cafes after 50 pay list price.
